

# Transition to Cloud with Microsoft Teams

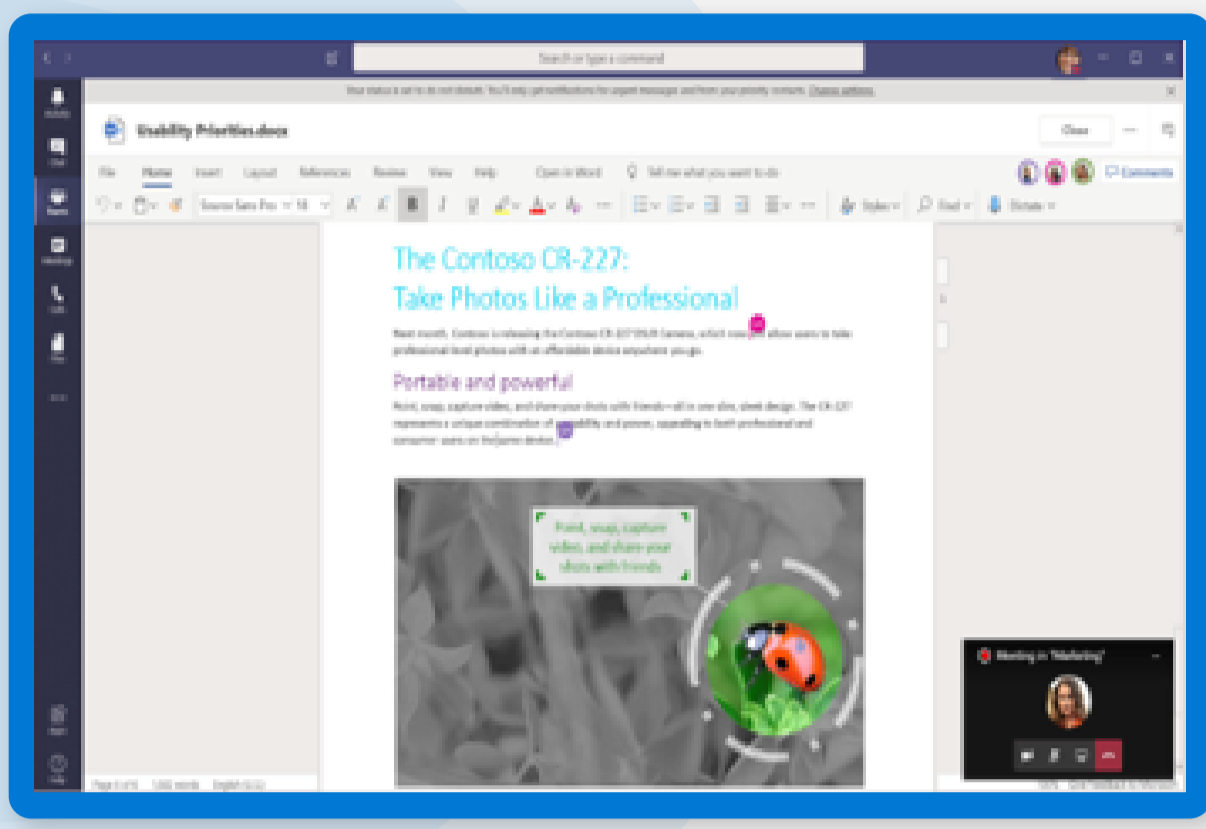

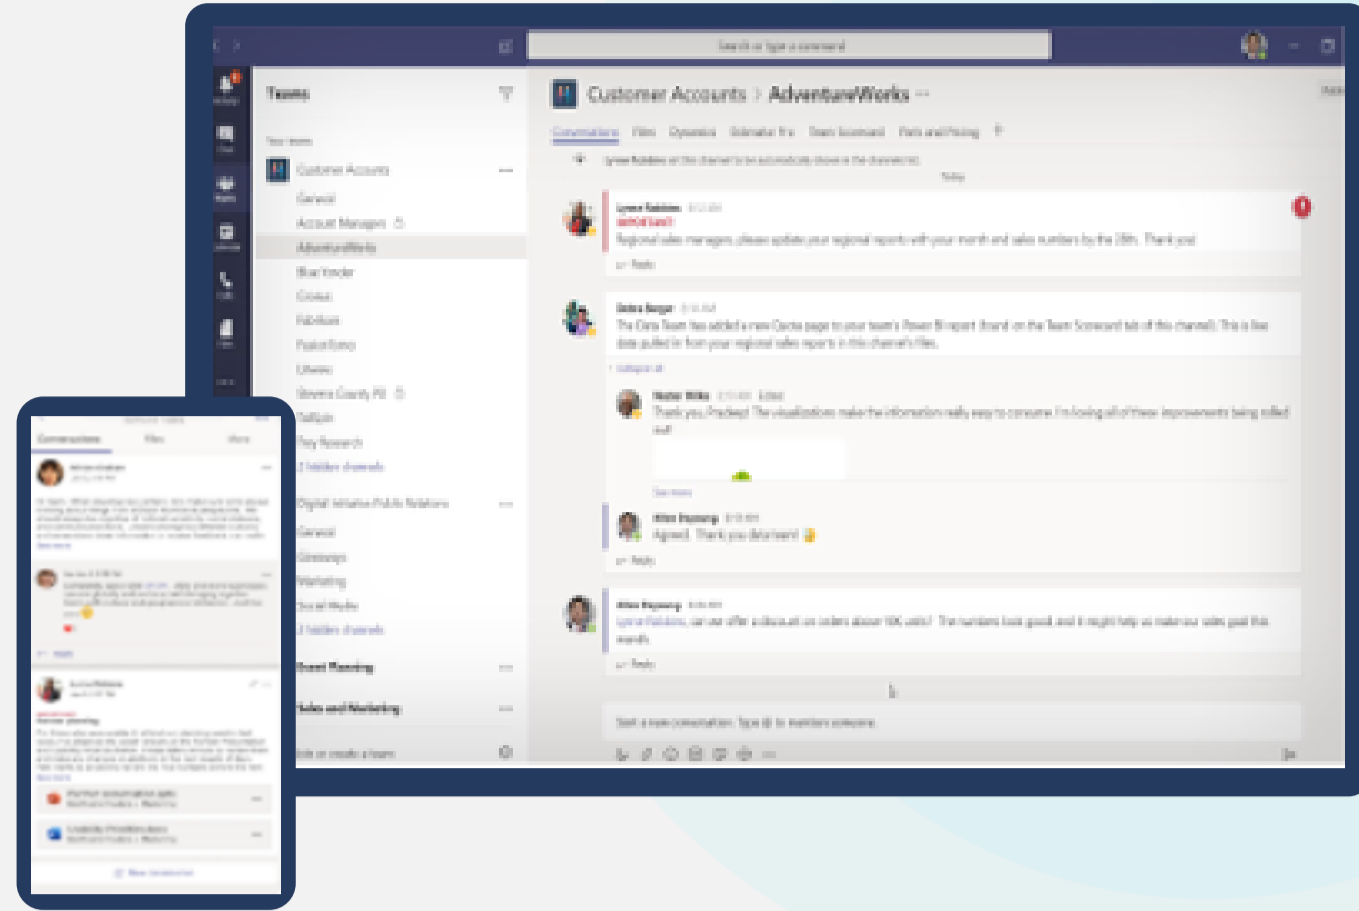

## Microsoft Teams

The hub for teamwork that helps drive more effective and secure meetings

Store relevant files, notes, and ongoing chats in a shared space

Organize your team in a shared workspace to chat, meet, create, and make decisions as a team

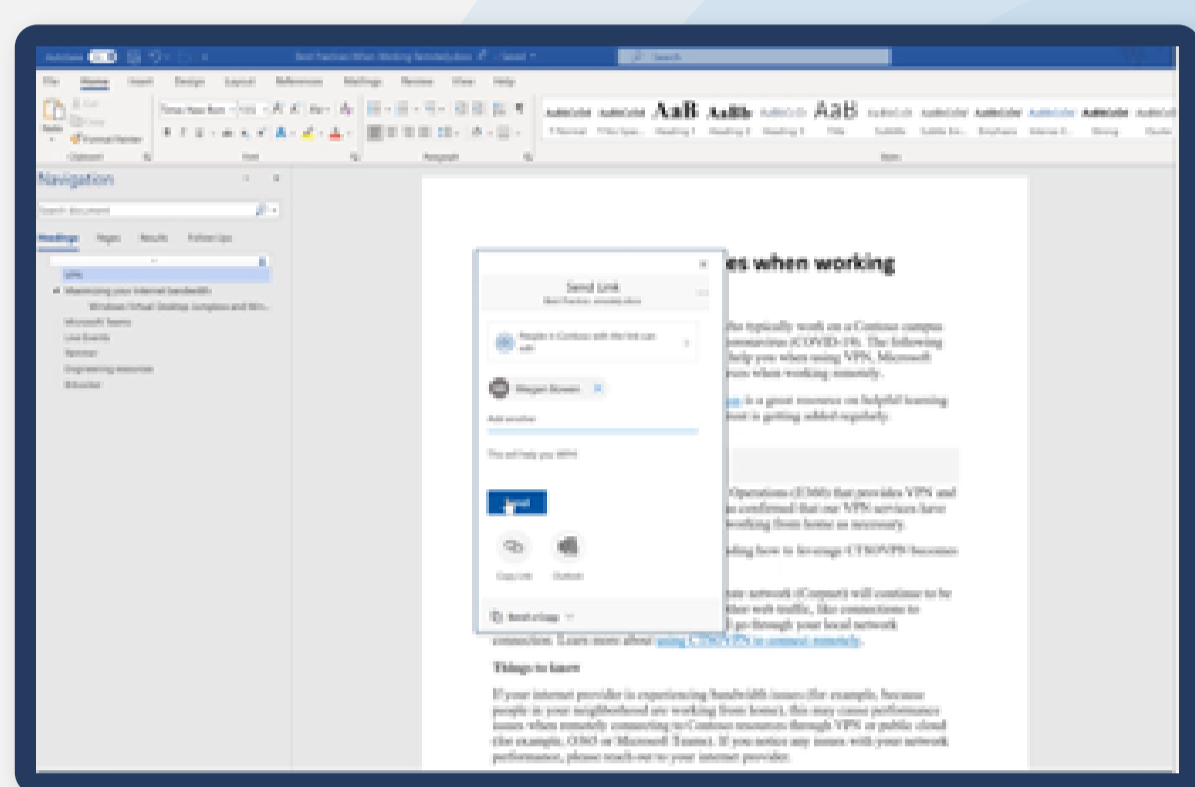

Create better content together

Office apps built right in, making @mentions and real-time co-authoring easy

Work together with trust and confidence thanks to version history and trusted cloud locations

Give secure file access to colleagues and external partners without compromising your work

Leverage the power of AI to make your work even better

Create content with assistance from AI like Word editor for maximum readability or PowerPoint design suggestions

Take advantage of integrated tools to simplify work, helping you do your best on any device

## Microsoft Teams for collaboration

A unified experience to help you do your best work no matter where you are

Teams was designed to help you and your organization make the most of your time. Whether you're on the go, at your desk, or working remotely, Teams has a unified experience to keep you connected—both inside and outside your organization

### Meet from anywhere

Chat, meet, and call individuals inside and outside your organization

### Collaborate with others

Access your files and data from any activated device, anywhere, on any platform, at any time

### Improve experience

Access Teams meetings across devices wherever you are: at home, in the office, or on the go

- Connect and collaborate with one platform for all business partners
- Share and edit files in real time with integrated Office 365 apps
- Get a fluid, familiar experience across PC, mobile, web, and meeting rooms
- Manage multiple Bookings calendars to reduce repetitive tasks
- Download as app for Windows, macOS, iOS and Android – or in a browser

Build better connections to feel closer to colleagues and the organization

## Microsoft Teams for effective connections

Calling, meeting, video, chat, presentation tools, Live Events, and webinars

### Feel connected, even when you're apart

- Dynamic view optimizes and maximizes shared content and video participants

### Have more control over how you see content and meeting participants

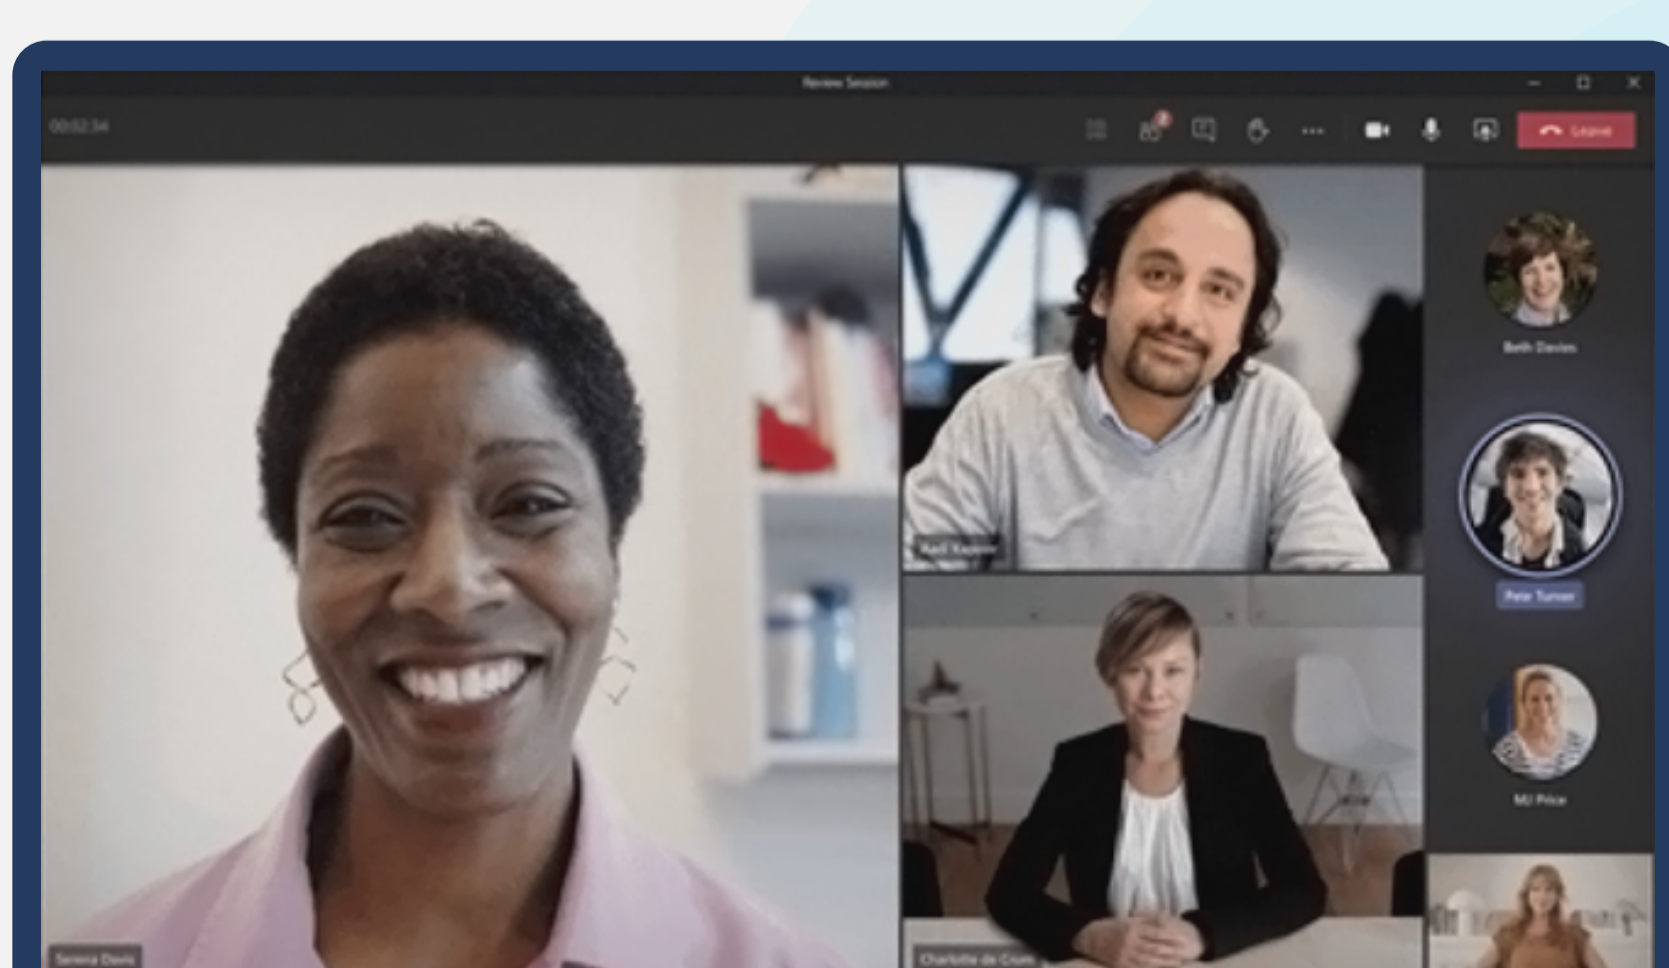

- Improve corporate visibility through leadership connections with up to 20k attendees (live and on-demand)

### Everyone has a voice, and their voice should be heard

- Follow along with what is said and who is saying it with live captions

### Stay in the know across the company through leadership communications and engagement

- Live reactions and polls to share feedback with all participants
